

Autism Ontario

Challenge #5: Create a solution that allows all chapters to easily communicate and share resources.

Autism Ontario has 25 chapters across the province. In order for them to be on the same page about volunteers, events and initiatives, they need to communicate to provide services to their community and increase organizational impact.

Currently, they use Huddle (fileshare/comments) to share information and communicate. But they don't REALLY use it.

Ideal Features:

- Chat option between individuals in each chapter
- Internal Resources Wiki
- Chapter pages or profiles
- Ties into Drupal (so profiles can be used on both systems)
- User-Friendly – Easy to on-board staff and volunteers
